

CHANGE ANNOUNCEMENT

**AGRABILITY
EFFECTIVE JUNE 23, 2006**

CHANGES

A new Manual Chapter has been developed which outlines how Vocational Rehabilitation (VR) and AgrAbility staff will work collaboratively in serving farmer/ranchers with a disability. A uniform process with clearly defined roles and responsibilities for both VR and AgrAbility staff will improve communication between program staff and the farmer/rancher, and better ensure farmer/ranchers receive necessary goods and/or services in a timely manner. This Program Manual Chapter describes the process to be followed and the respective roles and responsibilities of VR and AgrAbility staff.

VRIS UPDATE

This new Program Manual Chapter is located on VRIS, Program Manual, Community Services.

TEAM COMMUNICATION

Teams should thoroughly review this Program Manual Chapter at a Team Meeting.
